HOW WILL IT LOOK LIKE?

SHIP TECH GLOBAL is a part of Seafood Expo Russia. Companies participating in special exposition will be marked with a special icon on the floor plan and in the route planner.

Thus, target audience – purchasers of new vessels, can easily find the producers and other companies involved in shipbuilding and operations which they are interested in.*

*In terms of implementing the tasks of updating the fishing fleet and ensuring the continuous development of the fishing industry

BUSINESS PROGRAM

The special exposition will be followed up by rich and truly practice-orientated business program, which will enable industry professionals to seek mutually beneficial solutions and establish effective cooperation faster.

Managers and business owners as well as **technical specialists** from customers and contractors involved in fleet design, construction and equipping who mostly influence on purchasing equipment and services will take part in the discussion.*

*In terms of implementing the tasks of updating the fishing fleet and ensuring the continuous development of the fishing industry
